.....  
>>>>>

OK, here are a couple of ideas to help fill the agenda:

∇ Climate Change and the water programs – We'd like our climate change coordinator, Laura Ferris, to talk about this.

∇ Update from the EPA water programs – Art, Sarah Bahrman (acting due to Sadie's retirement) and I can give a run down on what's in play in our programs that would be of interest to state water directors

Here are a couple of suggestions on topics that other state directors might find interesting to hear about:

∇ MT Nutrient Rule implementation – Boulder permit

∇ WY Trespass law

∇ UT nutrients strategy

No...every time I write emails to that group, they never reply.....I'll try again.

George, do you have an agenda yet? I'm out next week and need to jump on any preparation I need to do.

Bert Garcia
